WOW! Life takes you down many roads. That's why I always thought the beach was the best place to chill. The beach experience is awesome...family, friends, and all the wonderful "OCEAN FUN". There is a community that exists at the beach that takes us out of our everyday lives. This being said, this beach has given us everything and more. This fall season the ARMY CORPS OF ENGINEERS together with the North Wildwood Replenishment Project has started and will give everyone that has enjoyed this stretch of sand the most wonderful gift. GET READY! Next summer (2010) when we all pack up our beach stuff, haul it down, find our "favorite spot" next (of course) to our "other TRUE beach (friends & family) we will all enjoy the ultimate beach going experience. That's why I would like to officially designate this beach a "WORLD CLASS BEACH" Here for us all to enjoy & love! And, by the way, just in case you forgot.... "IT'S FREE"!!!!

North Wildwood beaches are the best of the best! It's not like Wildwood where there is like a mile long walk, the ocean is right there. It's clean, it's free, it's perfect. If you are a fan of waves, there are waves. If you aren't, walk around the corner closer to Anglesea and there is calmer waters good for fishing and just getting cooled off, not knocked over...

I was just down the shore this weekend, and I had a ocean view room, and I watched the North Wildwood municipal authority at work. This beach is not the 1 mile walk to the water as some of the other beaches are, the workers are out very early in the morning fixing the sand, cleaning the beach and emptying the trash cans. Yes, trash cans spaced conveniently on the beach. This is why I vote for this beach

It's FREE! And in this economy you can't beat that price. Besides, I always say that God put the beaches there, how can you charge me for something you didn't make?
